For over 35 years, Scott Greene has been helping people understand data. He has worked closely with legal professionals, business leaders, owners, and IT departments to show them what data may be available, to explain how to collect and handle the data and to deliver straightforward analysis and impactful findings.

Scott created Evidence Solutions, Inc., a full-service Forensics firm in 2008 with Experts in Commercial Trucking, Transportation Safety, Accident Reconstruction, Digital Evidence, Cybersecurity, Law Enforcement, Product Failure, Real Estate, Sports & Fitness Injury, Greek Fraternity and more.

Today he heads the Digital Forensics division of Evidence Solutions and works with Attorneys, companies, and private individuals on a variety of digital forensic needs. He handles cell phones, black box analysis, electronic logging devices, electronic medical records, triangulation, infotainment, metadata, and other digital evidence. Scott has extensive experience testifying as an Expert Witness and makes complicated evidence easy to understand - Evidence in Plain English!
