

Tracee H. Wagner

Settlement Consultant

Forge Consulting LLC

Tracee Wagner joined The Forge Companies in 2019 as a Settlement Consultant.

With 20 years of experience working in the industry, Tracee has the knowledge and dedication to improve the settlement planning process for both our attorneys and their clients.

She spent 18 years as Director of Sales for a case management solution designed to improve law firm efficiencies. This experience provided her with the opportunity to consult with law firms across the country on best practices for managing a litigation.

Having a deep knowledge of the process, from initial intake to a successful financial recovery, allowed Tracee to seamlessly transition to working directly with our plaintiff clients as settlement consultant & planner with Forge.

Tracee was recently appointed to the Society of Settlement Planners Board of Directors.

Depending on the season, Tracee and her husband Chris split their time between Washington, DC and Miami Beach, FL. They share a love of wine, traveling, and music festivals, which are usually celebrated alongside many trial lawyers. They are the proud parents to a small Shorkie named Vino.
